

2022 Computer Science Supplemental Authorization Incentive Grant Program Institutions of Higher Education Information February 2023

To support Local Educational Agencies (LEAs) interested in applying to the Computer Science Supplemental Authorization Incentive Grant, the Commission's grant team is soliciting information from institutions of higher education (IHEs) that have courses that support the supplemental authorization. This [handbook](#) lists the units and courses necessary for the Introductory (page 5) and Specific (page 9) Computer Science Supplementary Authorization.

Note that this list is not exhaustive. Any IHEs that would like to include their information on this list may fill out this [survey](#).

If you have questions, please contact CSGrant@ctc.ca.gov.

Institutions of Higher Education Information

Azusa Pacific University

Name of IHE Contact	IHE Contact Email	Offers Introductory Authorization Courses	Offers Specific Authorization Courses	Modality of Courses
Rebekah Harris	rharris@apu.edu	Yes	Yes	Hybrid

Additional Information: The computer science courses are offered within the Department of Engineering and Computer Science and are part of a traditional undergraduate degree major. However, some courses are offered in the afternoon or evening or via hybrid modality. Interested teachers would apply to the university as nondegree seeking students.

California State University, Channel Islands

Name of IHE Contact	IHE Contact Email	Offers Introductory Authorization Courses	Offers Specific Authorization Courses	Modality of Courses
